Health Care Professions Council (HCPC).

## **TASK 2**

Using the recommended websites, it will be useful to investigate into the different health and social care pathways as, this subject can lead you into a variety of fields.

It will be useful to identify all the different age ranges we work with in health and social care.

What is meant by a multi-disciplinary approach?

Research into different health and social care settings will also be useful – you could identify the difference between statutory and non- statutory health and social settings.

### **TASK 3**

Conduct research into the topics mentioned above.

Make sure you have any stationary you might need to start college: paper and pens etc.

Think about any questions you may have for the start of the course.
